SSA statement (synthetic intake note):
box 5 (net benefits) is the only figure that goes on the return. HOW MUCH OF IT IS TAXABLE IS NOT ON THIS FORM: 0%, up to 50%, or up to 85% of box 5 is included in income depending on ALL of your other income (the Pub 915 / Form 1040 line 6b worksheet). The Social Security Administration cannot know that figure and never states it.

Boxes left blank carry no amounts in this synthetic scenario.
