Preparer note (synthetic):
Only taxes actually PAID in the year are deductible (a levy billed and not yet paid is not). Property tax is deductible whether or not it is escrowed — what matters is that the taxing authority was paid. Together with the state income tax withheld on the W-2 (box 17), this is the whole of Schedule A line 5d; the $40,000 TY2025 cap (§164(b)(6), OBBBA) applies to the SUM of them.
