Lender statement (synthetic intake note):
box 1 equals the Mortgage Credit Certificate statement's certified-indebtedness interest — the MCC program certified this single loan in full, so the lender's interest figure IS the Form 8396 line-1 amount.

This return takes the STANDARD deduction (itemizables fall below it — see the interview), so box 1 feeds only the Form 8396 credit, never a Schedule A deduction.

Boxes left blank carry no amounts in this synthetic scenario — only the filled boxes inform this return.
